The Elections.

The polls for the District of Honolulu were opened Wednesday, Feb. 2d, at 8 a. M. and the business of voting was conducted with perfect order and propriety throughout the day. There was a little speech-making, and exchange of baster and pleasantry by some of the candidates, but no exhibition of any great excitement or ill-will. This result may be attributed to the precuntionary measure of having all * the liquor shops and stores, throughout the city closed during the day. At 5 o'clock P. M. the polling ceased, and the counting of ballots commenced. This occupied about two hours and a half, and at half past seven the result was announced to an eager crowd from the upper balcony of Aliiolani House, by Inspector-

DEPARTMENT OF INTERIOR Generalization of Statement Statement of Statement I regret to learn, by your letter received the day, that you postponed by public notice the election at Walmen, which should have taken place on Wednesday last. It appears that your notice was dated Federary 2, 1500, and professes to postponer the election, because of sir. Kauss having said on the let. February, that if you proceeded in a certain way he would break up the ballist boxes. You do not indicate what the point was, which he bound hull with, and it does not appear that you attempted to hold the election at all. You say you did not do so because you feated a breach of the

Sherist to keep order, and by neglecting to open the post on the morning of the election day, each one of you has rendered houself liable to a fire of five hundred dellars (\$300), under the 18th section of the Act, passed the 18th Just 1805, he regulate the qualification of electors for the representatives to the Leg sixtive Assembly of the Kingdom.

Walmes, Kanal, — day of — 1876. You will take care that all three of you sign the notice that tee clear days are given exclusive of the day of date of the holace, and day of the election, and that the notice is posted in all public places, more especially on the Court House door, at the Churches, especially on the Congt House door, at the Churches, at the stores of the district, and other public places. I am told that one of the points of objection is that two of you have withheld tax receipts of the people. This will not justify any person in threats of violence against you, but I think it proper to warn you that if may person should withhold a tax receipt from a voter and thereby prevent his roting, he would be inhibe to a prosecution for damages on the part of the voter; and if a person be prevented from voting by reason of such illegal conduct, the election is liable to be declared void, and the person so wrongfully preventing one from voting mass be wrongfully preventing one from voting may be preceded against for corrupt practice.

No man can vote unless he produces before the Board his tax receipt, with the words, "qualified to vote," impressed thereon. This is the plain command of the Law, as expressed in section 12 of the act of 1868, and as this law is not repealed the In-

act of 1800, and as this law is not repenied the Inspectors must see that it is carried out.

Australian Comments on the New American Mail Steamers. For the most part, the Australian papers are very severe on the Pacific Mail boats and their

irregularities. A Dunedin paper says: "Public attention has been so much occupied with the elections that little of it has been denoted to the irregularities connected with the estimatement of the can Francisco service by the Pacific Mail Company, which have not, however, altogether escaped notice; and a portion of the Press has strungly recommended that the penalties incurred by the company in failing to send their first boats—the Vasco de pany in failing to send their first boat—the Vance de Gama—down to port Chalmers should be rigidly en-fierced. The mail shipped on the Cyphrenes at Well-ington was a very small one, and the authorities placed it on board with the express reservation that their doing so was not to prejudice their right to re-cover the penalties; and the Government also, we understand, protested against the size and character of the hour and there in mendation with the same
